in an uncertain economy where business risk is significant the company tends to rely more on its environment than to invest for example in all steps of technological creation this can be explained by the fact that investments in the acquisition ownership of production resources are less expensive than those implied in the formation of these resources which also explains the attractiveness in an open economy of regions with abundant scientific and technical resources to understand and analyze the innovation process in order to better design and launch new goods services and technologies one has to consider the creative dimension of the individual the business and the organization in general in new approaches to innovation the entrepreneur and the company are analyzed through their skills and their function of resource generation innovation thus becomes endogenous gradual or radical integrated in a complex process with many feedbacks and interactions the innovative organization small or large is presented in this book as a dynamic system composed of specific and diverse skills including those of the contractor engineers or managers by acquiring combining and mobilizing these skills the innovative agent entrepreneur or company can create technological resources and develop relations with its environment hence the importance of management in design implementation protection of intellectual property as well as of the development of new goods services and technology commercial and organizational models

mona chollet's in defense of witches is a brilliant well documented celebration le monde by an acclaimed french feminist of the witch as a symbol of female rebellion and independence in the face of misogyny and persecution centuries after the infamous witch hunts that swept through europe and america witches continue to hold a unique fascination for many as fairy tale villains practitioners of pagan religion as well as feminist icons witches are both the ultimate victim and the stubborn elusive rebel but who were the women who were accused and often killed for witchcraft what types of women have centuries of terror censored eliminated and repressed celebrated feminist writer mona chollet explores three types of women who were accused of witchcraft and persecuted the independent woman since widows and celibates were particularly targeted the childless woman since the time of the hunts marked the end of tolerance for those who claimed to control their fertility and the elderly woman who has always been an object of at best pity and at worst horror examining modern society chollet concludes that these women continue to be harassed and oppressed rather than being a brief moment in history the persecution of witches is an example of society's seemingly eternal misogyny while women today are direct descendants to those who were hunted down and killed for their thoughts and actions with fiery prose and arguments that range from the scholarly to the cultural in defense of witches seeks to unite the mythic image of the witch with modern women who live their lives on their own terms
